SUBJECT: How to Measure Success

    I was delighted to find, on my last day here, the attached collection of DI views about the value of SAFE. Note that these views were collected at the request of the SSCI. Please read this material with care and a sense of pride. Seen from the customers' perspective the project is a clear success. These views should help you to place your more severe technical evaluations in the context of the intelligence mission that OIT has supported so effectively. Of course you want to do things better; but, my friends, look at what you have done!

REMARKS

FYI

Here is a copy of the SAFE stories DI offices forwarded a few weeks ago in response to SSCI Staffer John Nelson's questions about how SAFE is used by analysts. Taken together, the stories show an impressive degree of acceptance by DI analysts.

Chief, RPMC Plans Group
OMPS
